

Van's Kitchen

AT VAN'S KITCHEN, we show up every day with the purpose of empowering underdogs, outsiders and the 'least of these' to rise up, conquer challenges and fulfill their dreams. We do this by creating egg rolls that are authentic and made with love, just as our founders did in 1986. Our CEO, Theresa Motter has been recognized by several organizations for her inspirational leadership and community-centered business approach. We are also grateful to have been recognized by CSN's 2020 Best New Product Awards for our Vegetable 4-pack egg rolls.

Van's Kitchen egg rolls are a convenience store staple that fill the need for Asian grab & go cuisine. Shifts in the c-store market within the past year have prompted the need for our touch-free 4-pack egg rolls. This offering meets retailer and consumer demand for safe and portable Asian flavor. Available in Chicken, Pork, Orange Chicken, and Vegetable varieties, our 4-packs can be microwaved in store for immediate consumption or taken home and cooked in a toaster oven, conventional oven, traditional fryer or air fryer—making them versatile for consumer demand.

For shoppers who are seeking an individual quick snack or meal, we also offer the convenience of an egg roll 2-pack with a handy microwave crisping sleeve. 2-packs are available in Pork and Chicken varieties and are shipped to our clients in an easy display-ready case.

To those who know us for our roller grill product, our classic Pork and Chicken egg rolls are also ready to roll when you are!

Whether you are seeking to increase flavor diversity in your store with a touch-free option or if you are ready to restock your roller grill, we look forward to sharing our Made to Love egg rolls with you and your shoppers.

Van's Kitchen is a certified women and minority-owned egg roll company founded by Vietnamese immigrants who sought out the American Dream. For 35 years, we have been dedicated to creating authentic egg rolls with love in every bite. Van's Kitchen believes that all people are Made to Love, and every egg roll we make is a representation of this.
